LIVING
LA MATERIA
LAMINATO **?**

**UN NUOVO PAVIMENTO?
UNA NUOVA SUPERFICIE?
PERCHÉ UN LAMINATO?
QUALI I VALORI?
QUALE LA DIMENSIONE?
QUALE IL DECORO?**

Quante domande ci poniamo prima di scegliere una superficie, una materia, un pavimento. Quante domande poniamo al professionista, al fornitore, al rivenditore. Si usa dire che la domanda ha in sé la risposta, il difficile è portarla a galla.

Il nuovo Living di **SKEMA** ha la pretesa di aiutarvi, con la competenza di tutto il suo network, nella domanda più complessa:

**“Qual è il mio pavimento?”
BUON VIAGGIO.**

**A NEW FLOORING?
A NEW SURFACE?
WHY A LAMINATE FLOORING?
WHICH ARE THE PROS?
WHICH SIZE?
WHICH DECOR?**

How many questions before choosing a surface, a matter, a flooring. How many questions do we ask to the professional, the supplier, the retailer. The answer is in the question itself, what is difficult is to bring it out.

New **SKEMA** Living, together with the competence of all its network, will help you to find the most complex question:

**“Which is my flooring?”
ENJOY.**

MOOD EXPERIENCE

Il gusto è una prerogativa italiana che nessuno ci contesta; la nostra capacità di creare il mood coordinato è unica, quasi un marchio di fabbrica. Il pavimento Living, con le sue varianti in dimensioni e disegni che vanno dal listone alla tavola, dalla spina ungherese alla superficie in ossido, ci segue in questa ricerca stilistica e ci garantisce il giusto feeling, la giusta, o meglio, l'atmosfera che ci aspettiamo.

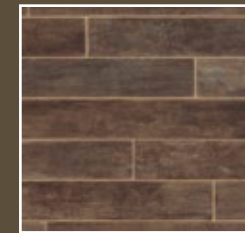

Taste is an Italian prerogative that no one disputes; our ability to create the coordinated mood is unique, almost a trademark.

Living flooring, with its variants in sizes and designs ranging from small to big planks from Hungarian herringbone to the oxide surface, follows us in this stylistic research and guarantees us the right feeling, the right, or rather the atmosphere that we expect.

AUTENTICO? SIMILI MA NON UGUALI

“Papà perché si dice così bello che sembra vero, e così perfetto che sembra finto?”

Tanto più la natura crea geometrie perfette, tanto più l'uomo desidera imitarle raccogliendone il massimo effetto e donando il massimo vantaggio. Quindi perché non scegliere un pavimento Living forte e resistente con il potere estetico del legno che la natura ci offre?

Il pavimento Living di **SKEMA** è autentico come solo la materia sa essere. Lo studio applicato ai decori, alla multitalità che riusciamo ad esprimere, il poro sincronizzato Emotion, la sincro bisellatura, sono ciò che Skema ha catturato dalla natura per dilatare quella sensazione che abbiamo sfiorando la materia autentica. Vero è ciò che esprime. Bellezza.

“Dad, why it says so beautiful that looks real, and so perfect that it looks fake?”

The more the nature creates perfect geometries, the more humans want to imitate it obtaining the maximum effect and giving the maximum benefit.

So why not choose Living, a strong and durable floor, with the aesthetic value of wood that nature offers us? **SKEMA** Living flooring is as authentic as only matter can be. The study applied to the decorations, different shades we can reproduce, the synchronized pore Emotion, the synchro bevel, are what **SKEMA** has captured from nature to broaden that feeling we have softly touching the authentic material. True is what it expresses. Beauty.

FORMATO? AD OGNUNO LA SUA DIMENSIONE

“Perché se abbiamo tutti 6 anni,
in classe c'è chi è più alto e chi è più
basso di me?”

E' un fatto di competizione.
Ma ciò che è vario stimola l'interesse e
permette un confronto.
Mi piace sapere che se ho un piccolo nido
d'amore, Living può propormi un piccolo
formato ma se invece ho scelto un ampio
open space avrò il mio must:
un maxi formato.

“Why is someone taller and someone smaller
than me in class,
if we are all 6 years old?”

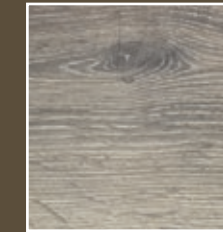

It's a matter of confrontation.
But it is difference that inspires interest
and confrontation.
Living can offer a small plank for those
living in a little lovely nest but also
planks with important dimensions
perfect in a wide open space.

SICURO? UN GIOCO PER I BAMBINI

“Guardami Papà! La maestra ci ha insegnato a fare la capriola all’indietro. Tu ci riesci?”

Quando la superficie di un tavolino non basta per esprimersi è necessario dare più spazio alla creatività. Uno spazio disponibile, accessibile, sicuro come un pavimento Living che utilizza materie prime a bassa emissione VOC indoor, che emette formaldeide a percentuale regolamentare, che percorre una filiera controllata, che appartiene ad una classe ignifuga molto bassa. Tutto rigorosamente certificato.

“Look at me Daddy! The teacher has taught us to do the backwards somersault. Can you?”

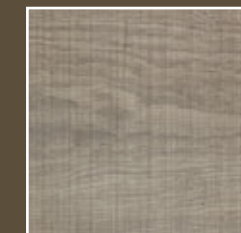

When the surface of a table is not enough, creativity needs more space. A Living flooring is a safe space because it is produced with raw materials with low indoor VOC and controlled formaldehyde emissions, run through a controlled chain, and belongs to a low fire retardant class. All precisely certified.
